Professional Summary

Full-Stack MERN Developer experienced in scalable backend architecture, MongoDB optimization, Redis caching, and message queues. Skilled in building production-ready applications with a focus on performance, testing, debugging, and maintainable code, including 96% API latency reduction.

Technical Skills

- **Languages** : JavaScript (ES6+), TypeScript, C, Java
- **Frontend** : React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Context API, GSAP, TanStack Query
- **Backend** : Node.js, Express.js, JWT, OAuth, RESTful API Design, Redis, Message Queues
- **Database** : MongoDB, Mongoose, Aggregation Pipelines, Query Optimization
- **Tools** : Git, GitHub, Vercel, Postman, API Testing

Internship

1. Sheryians Private Limited, Bhopal

Full Stack Intern

Project: Recruitment Website

Nov 2025 – Feb 2026

- Designed repository-based backend architecture with contract–implementation separation.
- Optimized MongoDB queries using aggregation pipelines and reduced API latency by 96% (~3s to ~100ms) using Redis caching and message queues.
- Implemented API validation, rate limiting, and secure Forgot/Reset Password with email verification and time-bound tokens.
- Built TypeScript frontend and MERN Admin Dashboard with Redux Toolkit, RBAC, 500+ applicants, AI Test module, and 100+ test cases.

2. UV Netware Pvt. Ltd.

Backend Developer Intern

Project: Universal Seat Booking Platform

Feb 2026 – Apr 2026

- Developed RESTful APIs and contributed to backend architecture, database integration, and application logic.
- Optimized backend performance and collaborated on scalable server-side solutions.

Education

Sagar Institute of Research & Technology – Excellence, Bhopal

July 2023 – July 2027

B.Tech in Computer Science Engineering | CGPA: 7.6

Govt. Higher Secondary School, Chhatarpur

July 2019 – July 2023

Senior Secondary (12th): 85%

Secondary (10th): 75%

Projects

Learn2Survive — AI Powered Disaster Learning

Live Preview | [GitHub](#)

- Developed a full-stack disaster preparedness platform with Student and School/Admin portals.
- Implemented regional disaster alerts, emergency contacts, quizzes, PDFs, videos, and interactive games.
- Built role-based authentication, dashboards, admin tools, AI-powered personalized learning, and multilingual support.

ShopMaster — Full E-commerce Store

Live Preview | [GitHub](#)

- Developed a full-featured e-commerce application with product listing, filtering, cart, and order workflows.
- Implemented secure authentication with two-step verification, session management, and payment gateway integration.
- Built using MERN stack (MongoDB, Express.js, React.js, Node.js) with scalable product and order architecture.

ResuInstant — AI Resume Builder

Live Preview | [GitHub](#)

- Built an AI-powered resume builder supporting section-wise creation, existing resume uploads, and AI-driven content generation.
- Implemented secure authentication, real-time feedback, and performance optimization using MERN and AI integration.

Certifications

Full Stack MERN Development

Sheryians Coding School • Bhopal, MP • 2025
